

N E W - Contractor Service Portals / Online E-Permits OR Online Inspections and Status

Submit permit applications electronically and check permit or inspection status through our online portals. We are trying our best to make things faster, easier and provide tracking for everyone.

The E-Permit Portal provides a cloud-based answer to permit submittal and tracking. Anyone on your team can use to help your work flow and ours.

E-Permit Portal – Online Application Process for building permits.

Link:

<https://talktomycity.com/search/Wic01> **or**

Please save this link to your bookmarks, distribute it and feel free to use E-Permit in the future. This Permit Portal greatly streamlines our processes, which shortens our timeline and gives your entire team the ability to track submittals and permits.

NEW – Request inspections online. The Contractor’s Portal – allows you to request inspections online - 24/7. It then provides a confirmation to you and maps the Inspector’s day.

The 2nd Portal is the **Contractor's Portal**. You will notice a QR code on the permit, which when scanned takes you directly to the portal. We suggest that field personnel install a QR reader or bookmark the site in their mobile device.

For Permit / Inspection Status

or

<https://www.iworq.net/iworq/PermitWeb/permitWebSearch.asp?cityid=1264&fid=600>

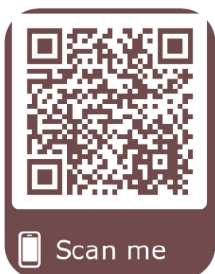

Permit and inspection status is available on this Portal to anyone, but only authorized personnel can request an inspection. A Contractor ID is required for the inspection request, your company’s ID is:

Contractor's ID is: _____

Thank you for helping us streamline our processes and bring you the convenience of on-the-go status. If you have any questions, Contact Alison at 928 668 0557.
